SUMMARY

Scope:

This routine, announced inspection was conducted in the area of Physical Security Programs for Power Reactors. Specific areas evaluated were Management Support; Security Program Plans; Assessment Aids; and Security Training and Qualification.

Results:

In the areas inspected, violations or deviations were not identified. The assessment aids capabilities have improved. The security training personnel and improvements in training aids at the firing range were noteworthy. The security program continues to provide an acceptable level of protection for the vital resources of this site.
