

JULY 29 1982

Docket Nos. 50-341
and 50-395

MEMORANDUM FOR: The Atomic Safety & Licensing Boards for:

Enrico Fermi 2
Virgil C. Summer Station, Unit 1

FROM: Robert A. Purple, Acting Assistant Director
for Licensing
Division of Licensing

SUBJECT: BOARD NOTIFICATION - RESULTS OF REGION IV
INVESTIGATION AT TELEDYNE
(BN No. 82-72)

In accordance with present NRC procedures regarding Board Notifications, the attached is provided for your information.

The enclosed report addresses the subject of a Region IV investigation that was stimulated by an allegation related to the Fitzpatrick and Yankee Electric facilities. The results reflect an audit of the Teledyne internal QA program. Since the investigation may be viewed as a cross-cut of the Teledyne QA program, its results reflect the general level of conformance to QA requirements at Teledyne. It is therefore applicable to all plants for which Teledyne is doing work.

It is the opinion of the staff that this report does not constitute a major safety concern.
