Approved by: *J. Roth* 2/8/94
J. Roth, Section Leader
Inspection Section
Operations Branch
Date Signed

SUMMARY

Scope: The areas examined during this routine material control and accounting (MC&A) safeguards inspection included MC&A systems management and assessment, measurement systems, physical inventory, measurement control, records and reports, and the corrective actions taken in response to deficiencies identified in previous inspections. In addition to the above, specific inspection activities were expanded with the assistance of two representatives from New Brunswick Laboratory.

Results: Within the scope of the inspection, one apparent violation was identified and five new inspector follow-up items were opened. Three previously opened items were closed and two remain open.
