Nuclear Regulatory Commission  
Washington D.C. 20555

Dear Chairman Selin:

I am a student at St. Ann's Academy,  
and I recently heard about this issue  
in Global Response Organization. I  
personally feel that you should not  
dump your waste inside of the black  
community. I feel that you should take  
your business elsewhere because all  
people should be able to have  
their share in what they say and  
what goes into their community.  
You have to realize that they are  
also people, and they have a right too.
