Dear Mr. Farrar:

SUBJECT: WITHDRAWAL OF AMENDMENT REQUEST FOR LASALLE COUNTY STATION, UNIT 1
(TAC NO. M88350)

By letter dated January 24, 1994, you withdrew your request for an amendment to Facility Operating License No. NPF-11 for the LaSalle County Station, Unit 1. The amendment request dated December 10, 1993, was for a one-time only revision to the LaSalle, Unit 1, Technical Specifications (TS). The purpose of the proposed TS revision was to fulfill the commitment in your letter dated December 6, 1993, to request an exigent license amendment in accordance with NRC policy following our granting of a Notice of Enforcement Discretion (NOED) on December 4, 1993; the NOED was confirmed in our letter dated December 13, 1993.

The basis for your withdrawal request is that the proposed revision to the TSs is no longer needed in that LaSalle, Unit 1, went to cold shutdown on January 23, 1994. Accordingly, you performed the setpoint testing of the safety valve pressure lift settings of the two safety relief valves (SRVs), which were the subject of the NOED. This setpoint testing thereby brought the two SRVs in compliance with the TSs for LaSalle, Unit 1.

The enclosed Notice of Withdrawal of Amendment has been forwarded to the Office of the Federal Register for publication.

Sincerely,

original signed by Clyde Y. Shiraki for
