In the Matter of
PENNSYLVANIA POWER AND LIGHT CO.
ALLEGHENY ELECTRIC COOPERATIVE, INC.
(Susquehanna Steam Electric Station, Units 1 and 2)
Docket No. 50-387 OL, 50-388 OL

Dear Members of the Appeal Board:

The purpose of this letter is to confirm in writing my oral representation to the Appeal Board that the stipulation by and between the Applicants/Licensees and the Commonwealth of Pennsylvania is acceptable to the NRC Staff because it assures that sufficient quantities and types of dosimetry will be available to emergency workers responding to a radiological emergency at the Susquehanna facility. Thus, in the Staff's view there is no longer a controversy among the three parties to the Commonwealth's appeal on the dosimetry issue.

Sincerely,

James M. Cutchin, IV
Counsel for NRC Staff
