Docket No. 50-373

MEMORANDUM FOR: John C. Hoyle, Acting Secretary

FROM: Harold R. Denton, Director
Office of Nuclear Reactor Regulation

SUBJECT: STAFF REQUIREMENTS - CONDITIONS TO THE LA SALLE FULL
POWER LICENSE AMENDMENT AND RESPONSE TO THE REMAINING
2.206 PETITION

Your August 6, 1982 memorandum identified NRR staff requirements to be met before issuing a full power amendment to the La Salle Unit 1 operating license. These included two licensing conditions related to the HVAC system and action on the 2.206 petition by Mr. E. M. Gogol. The following describes our actions taken with these requirements.

On August 6, 1982, I acted upon Mr. Gogol's petition; a copy of my determination is enclosed as Attachment 1.

On August 13, 1982 a full power amendment was issued which included the two license conditions identified in your August 6 memorandum (Attachment 2). With respect to the license condition which restricted power to 5 percent, the staff concluded that the matter was resolved to its satisfaction on the basis of the licensee's August 11, 1982 submittal and lifted the 5 percent power restriction. A copy of the staff's August 13 letter lifting the license condition is enclosed as Attachment 3.

SUBJECT: STAFF REQUIREMENTS - CONDITIONS TO THE LA SALLE FULL POWER
LICENSE AMENDMENT AND RESPONSE TO THE REMAINING 2.206
PETITION

Your August 6, 1982 memorandum identified NRR staff requirements to be met before issuing a full power amendment to the La Salle Unit 1 operating license. These included two licensing conditions related to the HVAC system and prior action by me on the remaining 2.206 petition (by Mr. E. M. Gogol). Following is our actions taken with these requirements.

On August 6, 1982, I acted upon the remaining 2.206 petition; a copy of my letter on this petition is enclosed as Attachment 1.

On August 13, 1982, a full power amendment which included the two license conditions identified in your August 6 memorandum was issued, see Attachment 2. Finally, with respect to one of these two license conditions which restrict power to 5 percent, the staff lifted the 5 percent power condition as a matter resolved to the staff's satisfaction, based on an August 11, 1982 submittal by the licensee. A copy of the staff's August 13 letter lifting the license condition is enclosed as Attachment 3.
