

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555-0001

February 17, 1994

Docket No. 52-003

Mr. Nicholas J. Liparulo  
Nuclear Safety and Regulatory Activities  
Westinghouse Electric Corporation  
P.O. Box 355  
Pittsburgh, Pennsylvania 15230

Dear Mr. Liparulo:

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION ON THE AP600

The staff is developing a code for auditing large break loss-of-coolant-accident calculations for the AP600 design, and has determined that it needs additional information (Q952.44-Q952.46). In addition, the staff needs additional information to enable it to set the initial and boundary conditions for the ROSA facility (Q952.47-Q952.48). Although some of the information is available in the standard safety analysis report (SSAR), we request that you verify the location and validity of that information. Please identify any separate reports that present more recent analyses than documented in the SSAR.

Enclosed are the staff's questions. Please respond to this request by March 31, 1994.

You have requested that portions of the information submitted in the June 1992, application for design certification be exempt from mandatory public disclosure. While the staff has not completed its review of your request in accordance with the requirements of 10 CFR 2.790, that portion of the submitted information is being withheld from public disclosure pending the staff's final determination. The staff concludes that this request for additional information does not contain those portions of the information for which exemption is sought. However, the staff will withhold this letter from public disclosure for 30 calendar days from the date of this letter to allow Westinghouse the opportunity to verify the staff's conclusions. If, after that time, you do not request that all or portions of the information in the enclosures be withheld from public disclosure in accordance with 10 CFR 2.790, this letter will be placed in the NRC's Public Document Room.

---

\*The numbers in parentheses designate the tracking numbers assigned to the questions.

This request for additional information affects nine or fewer respondents, and therefore is not subject to review by the Office of Management and Budget under P.L. 96-511.

If you have any questions regarding this matter, you can contact me at (301) 504-1120.

Sincerely,

(Original signed by)

Thomas J. Kenyon, Project Manager  
Standardization Project Directorate  
Associate Director for Advanced Reactors  
and License Renewal  
Office of Nuclear Reactor Regulation
