

Docket

AUG 9 1982

Mr. R. P. Galgoci, Superintendent
Newton Falls Municipal Light & Power
52 E. Church Street
Newton Falls, Ohio 44444

Dear Mr. Galgoci:

OPERATING LICENSE ANTITRUST REVIEW OF THE PERRY/DAVIS-BESSE NUCLEAR PLANTS

The NRC staff is presently reviewing the application of the Ohio Edison Company (as one of the co-applicant CAPCO pool members) for an operating license for Unit 1 of the Perry Nuclear Plant. The purpose of this review is to establish whether any significant changes, which have anti-trust implications, have occurred as a consequence of Ohio Edison's (or other CAPCO members') activities since the construction permit antitrust review was completed in 1977.

It is our understanding that the City of Newton Falls (City) is now a wholesale customer of the Ohio Edison Company. As a means of assisting in our analysis of significant changes, we would appreciate your response to the following questions:

1. When did wholesale service become available from Ohio Edison?
When did the City request wholesale service from Ohio Edison?
When did the City become a wholesale customer of Ohio Edison? -
Please supply a copy of the wholesale service schedule.
2. Does the City now operate any generating capacity of its own and if so, to what extent is it used?
3. What effects, if any, has wholesale service from Ohio Edison had on the City's planning and system operation? and
4. What is your judgment of the viability of the Newton Falls electric system?
