Certificate of Compliance No. 71-9151

Dear Mr. MacDonald:

Reference is made to our letter of July 15, 1982, which requested that Certificate of Compliance No. 71-9151 be revised to include the HN-100 Series 3A cask, an upgraded version. In addition, it is requested that the revised certificate include the latest "as-built" drawing for the HN-100 Series 3 casks. Eight copies of Hittman Nuclear & Development Corporation Drawing Nos. C001-5-9138, Rev. 7 and C001-5-9140, Rev. 5, are attached. Attachment A contains a listing of the changes included in the drawings and the requested revisions in the Certificate of Compliance.

Our letter of July 15, 1982 forwarded a check in the amount of \$150 to cover the revision to the Certificate of Compliance. It is assumed that the further revisions requested by this letter can be part of the same revision. If this is not the case, or if the issuance of the certificate will be delayed, please let us know.

Very truly yours,

Charles W. Mallory
Vice President, Engineering
