Dr. N. A. Wogman, Manager
 Radiological & Inorganic
 Chemistry Section
 Battelle Pacific Northwest
 Laboratories
 P. O. Box 999
 Richland, WA 99352

Dear Dr. Wogman:

I have reviewed your monthly report for the "Environmental Cleanup Standards" (B-2216) for July, 1982, and have the following comments:

1. Contrary to my remarks in the monthly report review letter for May (dated July 28, 1982) the report "Recommended Procedures for Measuring Radon Fluxes from Disposal Sites of Residual Radioactive Materials" shall not be included in the report "Recommended Procedures for Identifying Properties that Require Remedial Action, and for Verifying That Remedial Action Has been Successful".
2. You should give priority to completing the 'Remedial Action' report in order to meet the September 30, 1982 deadline. The appendix on instrument calibration should be included as stated in my monthly report review letter for June (dated July 28, 1982); however, contrary to my remark under 1(b) of that letter, the calibration procedures for radon flux measuring devices should not be included. This section should be made part of the report on 'Radon Fluxes'.
3. Because of it's secondary priority, your modified report on 'Radon Fluxes' submitted with the July monthly report will be reviewed at a later date.
4. Your Financial Statement for July 1982 was acceptable.

All other aspects of your June, 1982 report were adequate. The actions taken by this letter are considered to be within the scope of the current contract (B-2216). No changes to costs or final delivery of contracted
