Vice Chairman

Raleigh, NC 27602

Gentlemen:

Subject: Report Nos. 50-325/82-16 and 50-324/82-16

This refers to your letters of August 3 and 26, 1982, informing us of steps you have taken to correct the violations concerning activities under NRC Operating License Nos. DPR-71 and DPR-62 brought to your attention in our letter of June 18, 1982. Your August 3 letter denied Violation A on the basis that a trend detection system had already been established. Our concern with your denial of this inspection finding was discussed by telephone by Mr. C. W. Burger of this office with Mr. P. W. Howe, CP&L Vice President - Technical Services. Based on this conversation, your supplemental response dated August 26 withdrew your previous denial of Violation A. We will examine your corrective actions and plans during subsequent inspections.

Sincerely,

(Original signed by RCLewis)
