Mr. John O. Schiffgens
Materials Engineering Branch
U.S. Nuclear Regulatory Commission
Washington, DC 20555

SUBJECT: CT-25033, TURBINE MISSILE REPORT, Revision 0, August, 1982.

Dear Mr. Schiffgens:

Enclosed is the subject missile energy report which you should use in the review of our topical report on missiles. The missile energy report (CT-24XXX) previously sent you should be destroyed as it does not meet the requirements in paragraph (a), page 2 of W. V. Johnston's letter of August 3, 1982.

I expect to mail the probability report and input data to you this week. They will be for the same unit as CT-25033.

Very truly yours,

J. D. Dickinson, Manager
Engineering Information
