Subject: LIMITED STOP WORK ORDER ON MISCELLANEOUS WORK

A Limited Stop Work Order was issued September 10, 1982, by CG&E for all miscellaneous work requests issued under the Quality Confirmation Program. The Stop Work Order involved three contractors (H.J. Kaiser, Catalytic, and Kramig Co.) performing miscellaneous work such as paint and insulation removal.

The Stop Work Order was issued by the licensee following the review of a concern expressed by NRC inspectors that the work involved had not been properly classified as safety-related.

The Stop Work Order will remain in effect until the appropriate work-classification procedures are evaluated and updated. The resident inspectors will follow the revision of the procedures.

Region III (Chicago) does not plan a news announcement at this time. News media attention can be anticipated because of the widespread public interest in Zimmer.

The State of Ohio will be notified.

Region III was notified of the pending Stop Work Order on September 9, 1982. This information is current as of 9:00 a.m. (EST), September 13, 1982.
