Docket No. 70-734

General Atomic Company  
P. O. Box 81608  
San Diego, California 92138

Attention: Mr. J. W. Parker, Director  
Quality Assurance and Compliance Division

Gentlemen:

Subject: Inspection at General Atomic Company

This refers to a routine, safety inspection conducted by B. L. Brock of this office on June 14-17, 1982, of activities authorized under NRC license number SNM-696 and to the discussion of our findings held with you and members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

No items of noncompliance with NRC requirements were identified within the scope of this inspection.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
