Gentlemen:

Thank you for your letter of June 2, 1982, in response to our letter dated May 14, 1982. As a result of our review, we find that additional information is needed on the scope of the reexamination of radiographs performed. Specifically, please clarify whether the reexamination: (1) addressed the work of all of the Kernersville radiography staff; and (2) was confined to piping weld radiographs for the Tennessee Valley Authority Hartsville facility.

Please provide this additional information within 25 days from the date of this letter in order that we may complete our review.

Sincerely,
