Arkansas Power and Light Company
ATTN: Mr. William Cavanaugh III
Senior Vice President - Energy Supply
P. O. Box 551
Little Rock, Arkansas 72203

Gentlemen:

This refers to the inspection conducted by Messrs. D. M. Hunnicutt and R. P. Mullikin and Ms. K. A. Whittlesey of our staff during the period of August 3-5, 1982, of activities authorized by NRC Facility Operating Licenses DPR-51 and NPF-6 for Arkansas Nuclear One, Units 1 and 2, and to the discussion of our findings with Mr. J. M. Levine of your staff on August 5, 1982.

This special inspection was conducted to verify that early warning system radios had been distributed by Arkansas Power and Light Company to eligible residents who live outside areas covered by a warning siren and within the 10-mile Emergency Planning Zone (EPZ). Our findings are documented in the enclosed inspection report. The inspection consisted of interviews with randomly selected residents located within the 10-mile EPZ to verify that these residents had been offered or had received an early warning system radio.

Within the scope of the inspection, no violations or deviations were identified.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within 10 days of the date of this letter and submit written application to withhold information contained therein within 30 days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
