Mr. John H. Garrity, Senior Director
 Nuclear Engineering and Licensing
 Maine Yankee Atomic Power Company
 83 Edison Drive
 Augusta, Maine 04336

Dear Mr. Garrity:

SUBJECT: RADIOLOGICAL EFFLUENT TECHNICAL SPECIFICATIONS - FOLLOW-UP
 ON MEETING OF JULY 19 AND 20, 1982

This letter concerns NRC's review of your submittals on Radiological Effluent Technical Specifications (RETS) (dated March 15, 1979) and Offsite Dose Calculation Manual (ODCM) (dated May 14, 1979). These submittals were reviewed by our contractor, Franklin Research Center (FRC) and discussed with you at the meeting held on July 19 and 20, 1982, at the Maine Yankee site.

At that meeting, Maine Yankee committed to review revised copies of the RETS and ODCM (Enclosures 1 and 2) comparisons as prepared by FRC. Enclosed are those documents and FRC's summary of the July 19 and 20 meeting (Enclosure 3).

Furthermore, the staff has reviewed certain specific issues you have raised on RETS and ODCM. The current staff positions are noted in Enclosure 4. Mr. Charles Willis of the Effluent Treatment Systems Branch is available to discuss these and other RETS issues with you. His phone number is (301) 492-7363.

In view of the progress made to date in resolving many of the differences on these issues, you are requested to resubmit the revised RETS and ODCM within 30 days of receipt of this letter. However, please feel free to contact the assigned project manager regarding alternative responses.

Sincerely,

Original signed by
 Robert A. Clark
