Dear Mr. John Collins,

The following is an answer to items of noncompliance in regards to safety inspection performed by Mr. Hooker:

1. 1. Victoreen Model 06-200 containing 90 microcuries of Cesium-137 was shipped to Tech/Op to be destroyed.
2. To avoid further violations of this nature, Glove will not accept Cesium 137 which is not on the license.
3. 7-7-82
2. Whole Body Exposure of 3.05 rems in one quarter.
 1. This employee was terminated as the result of the over exposure. Additional Radiation Safety Instructions were given to all Radiographers.
 2. In the future Radiation Safety will be stressed to all employees. To avoid an exposure over 1.250 rems per quarter.
 3. 6-15-82
3. Keys
 1. All vehicle's And camper darkrooms (Storage rooms) are locked at all times and the keys are locked in a special building for the keys only. The key to the key building are in possession of R.V., Tony and the Radiographers. At the time a Radiographer is hired we give him a key to key building at the time he terminates we recall the key to the key building. All keys are accounted for. If a terminated employee does not turn in the key to the key building the lock will be changed and new keys to the key building will be issued.
 2. To avoid violations of this nature in the future all vehicles and Storage darkrooms will remain locked at all times with keys available only to globe's active Radiographers, R.V., and Tony.
 3. 5-28-82
4. 1. All radiographic exposure devices stored in camper darkroom trucks have been locked while in storage.

2. To avoid this in the future, special instructions to Radiographers have been given. Source is to be locked and the key removed while in storage.
3. 6-15-82
- 5.A.1. Shipping papers are being kept in each vehicle. Radiographers were instructed to complete shipping papers on type B quantities of radioactive material transported on public highways.
 2. In the future a daily check will be made to assure that all Radiographers are complying with the required shipping papers.
 3. 5-28-82
- 5.B.1. Outside containers have been labeled "Inside Package Comply with Prescribed Specifications."
 2. In the future all type B packages of Radioactive material will be labeled "Inside Package Comply with Prescribed Specifications."
 3. 5-28-82

If there are any problems please call me.

Sincerely,

R. V. Ozmun
