

10/01/82

30-19079

Midwestern Wireline Corporation
ATTN: William Seckler
4909 E. 9th Street
Tulsa, Oklahoma 74112

Gentlemen:

This refers to the attempted safety inspection by Mr. D. B. Spitzberg of this office on September 2, 1982, of the activities authorized by the NRC Byproduct Material License 35-19677-01 and to the telephone discussion between yourself and Mr. Spitzberg also on September 2, 1982.

Mr. Spitzberg found that your company had vacated its facility at 5747 East Admiral, Tulsa, Oklahoma, and later conversations with you confirmed that you had sold your equipment to an interest in Seminole, Oklahoma. During this discussion Mr. Spitzberg identified certain of your activities which were found not to be conducted in full compliance with NRC requirements as specified in the Notice of Violation attached to this letter.

On September 10, 1982, you were contacted by Mr. R. J. Everett of this office who informed you that NRC licenses are not transferable and that you, the licensee, must take steps to retrieve the source and place it in secure storage until such time it could be properly transferred or disposed. You agreed to do this and NRC sent you a confirmatory letter on September 10, 1982. Because of this, and due to your expressed desire to sell your company and transfer your byproduct material, a response to the Notice of Violation will not be required. However, if and when legal transfer is consummated, should you wish to terminate your license, please submit a completed Form NRC-314 (enclosed) with letter requesting license termination to this office, Region IV, U. S. Nuclear Regulatory Commission, 611 Ryan Plaza Dr., Suite 1000, Arlington, Texas, 76011, ATTN: Glen D. Brown.

Should you have any questions concerning this letter, we will be pleased to discuss them with you.

Sincerely,

(S)

Glen D. Brown, Chief
Technical Programs Branch
