Dear Mr. Weiss:

As we discussed in our conversation this morning, the incorrect check was accidentally included in Amersham Corporation's application for evaluation of the Keg Design transport containers which was submitted to the Nuclear Regulatory Commission on August 25, 1982.

The check that was included in the application (No. 047307) had been intended as payment for the inspection fees noted on Invoice Number 1043P (copy attached). It was supposed to be sent independantly from the transport container submission.

The check for \$200.00 which should have accompanied the application (No. 053491) has been enclosed in this letter.

I hope that these funds can be applied to the proper accounts at the Nuclear Regulatory Commission and I apologize for the error.

If there is any additional information that will be needed to correct this situation, please do not hesitate to contact me.

Sincerely,

Linda A. Bagby
