

AUG 11 1982

Docket No. 99900400

Babcock & Wilcox Company  
Nuclear Power Generation Division  
ATTN: Mr. D. E. Guilbert  
Vice President and General Manager  
P. O. Box 1260  
Lynchburg, VA 24505

Gentlemen:

We have reviewed your letter of June 23, 1982, concerning calculation input references. We have one general point that needs clarification, dealing with revisions to old calculations (pre-September 1, 1980).

You state that old calculations with new effectivities (old calculations used "as is" on current contracts) will have their input references verified. In addition, if one page of the old calculation is revised, which would require the next sequential revision number for the calculation, the input references for the complete calculation would be verified.

If this indicates a proper understanding of this part of your program, please confirm in writing as we will be monitoring your program's implementation during future inspections.

Sincerely,

"Original Signed by  
U. POTAPOVS"

Uldis Potapovs, Chief  
Vendor Program Branch
