D.J. Sreniawski:

This letter is to respond to your office's inspection on August 9, 1982.

The following are the steps we have taken to correct the violations.

1. We have purchased a steel cabinet to store the exit signs. We will continue to use the same heavy duty padlock. We have had a sign made and installed stating "Caution - Contains Radioactivity". This is over the door to the room where we store the signs. Another sign of equal size stating "This room must be evacuated immediately if any exit sign is accidently broken" has also been installed.
2. We made arrangements with the Saunders Roe Co., 2475 S. Stratford Rd., Winston-Salem, N.C. 27103 to file information on all of the transfers we make from our inventory. Your office should have been brought up to date by the receipt of this letter. Saunders Roe will continue to provide the transfer information in the future.

We believe we are now in compliance and our storage, signs and information system will keep us in compliance.

Sincerely,

Rick Linnell

License No. 21-19843-01

Gentlemen:

This refers to the routine safety inspection conducted by Messrs. W. J. Slawinski and T. J. Ploski of this office on August 9, 1982, of activities authorized by NRC Byproduct Material License No. 21-19843-01 and to the discussion of our findings with you at the conclusion of the inspection and to the telephone conversation with Janice Stevens of Saunders-Roe Developments, Inc. on August 12, 1982.

During this inspection, certain of your activities appeared to be in non-compliance with NRC requirements, as specified in the enclosed Appendix. A written response is required.

The responses directed by this letter (and the accompanying Notice) are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

A handwritten signature in cursive script that reads "D. J. Sreniawski".

D. J. Sreniawski, Chief
Materials Radiation Protection
