Gentlemen:

Subject: Inspection No. 11-2405/82-02

This refers to the inspection conducted by Mr. G. C. Smith of this office on August 30, 1982, at the U. S. Customs port of entry and in transit, of an irradiated reactor fuel shipment authorized by NRC License No. ISNM-81-005.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of this inspection, no violations were observed.

In accordance with 10 CFR 73.21 of the NRC's regulations, documentation of security measures for the physical protection of shipments of formula quantities of strategic special nuclear material and spent fuel is deemed to be Safeguards Information. Each person who produces, receives or acquires Safeguards Information is required to ensure that it is protected against unauthorized disclosure. Therefore, except for the report cover sheet, the enclosed inspection report will not be placed in the Public Document Room and will receive limited distribution pursuant to 10 CFR 73.21(c).

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,

Original Signed By:
