APPENDIX A

NOTICE OF VIOLATION

Yater Clinic
Washington, D.C. 20036

Docket No. 30-15105
License No. 08-18450-01

As a result of the inspection conducted on July 30, 1982, and in accordance with the NRC Enforcement Policy (10 CFR 2, Appendix C), the following violations were identified:

- A. Condition 14 of License No. 08-18450-01 requires that licensed material be possessed and used in accordance with statements, representations and procedures contained in application dated May 8, 1979.

Item 15.B.1 of this application requires that technicians who draw up and inject radioactive material wear disposable gloves.

Contrary to the above, as of July 30, 1982, only one glove was worn during the handling of radioactive material.

This is a Severity Level IV violation. (Supplement VI)

- B. 10 CFR 20.401(b) requires that each licensee maintain records showing the results of surveys required by 10 CFR 20.201(b).

Contrary to the above, as of July 30, 1982, records were not maintained of the contamination and radiation surveys that were performed within the Nuclear Medicine Department.

This is a Severity Level V violation. (Supplemental IV)

Pursuant to the provisions of 10 CFR 2.201, Yater Clinic, is hereby required to submit to this office within thirty days of the date of this Notice, a written statement or explanation in reply, including: (1) the corrective steps which have been taken and the results achieved; (2) corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending this response time.
