Mr. John C. Hoyle
Acting Secretary
United States Nuclear Regulatory Commission
Washington, D.C. 20555RE: Kerr-McGee Chemical Corporation (West Chicago Rare
Earth Facility) NRC Order CLI-82-21

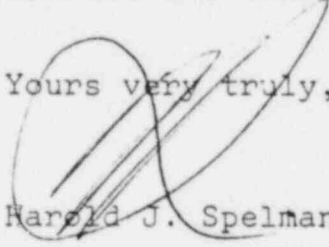

Dear Secretary Hoyle:

Regarding the Commission's Order of August 6, 1982 granting a hearing to the City of West Chicago in the above captioned matter, the City has the following questions regarding the procedures and timing of the hearing to be given. Would you kindly advise us on the following matters:

1. What rules of procedure will the hearing officer for the Commission be using at the hearing?
2. Will the City be receiving a notice of hearing pursuant to 10 C.F.R. Section 2.703?
3. Will the discovery rules of 10 C.F.R. Section 2.740 and the subpoena provisions of 2.720 apply to the hearing?
4. Has there been a timetable established for the dates for the hearing and for pre-hearing submissions to the Commission?

Thank you for your assistance and clarification on these matters.

Yours very truly,

Harold J. Spelman
