Attention: Mr. Marvin Peterson, Assistant Director  
Office of International Programs  
Export/Import and International Safeguards  
Mail Station 3H5

Subject: Application for Fuel Channels for  
Nuclear Reactor TVO/Finland

Reference: Our application dated 11 April 1990

Dear Mr. Peterson:

Please find enclosed supporting documentation from TVO to Siemens regarding assurances from Finland needed in support of our license application. Hopefully, this should resolve any remaining questions the NRC or other appropriate governmental agencies have so that the approval for our license can be forthcoming directly.

Please let me know if I can answer any questions or supply any additional information.

Best regards,

R.W. Hockman

Cartech's letter dated May 23, 1990 to Siemens. Discussions between Siemens and TVO in Helsinki on August 2-3, 1990. Request for assurance by TVO, Finland regarding the end use of BWR fuel channels that Carpenter Technology Corporation Special Products Division as a sub-contractor to Siemens AG will deliver to TVO

Dear Mr Hertweck,

1. Statement by TVO

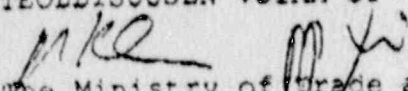

Our company Teollisuuden Voima Oy (TVO) will use the fuel channels delivered to us by Carpenter Technology Corporation Special Products Division (USA), the sub-contractor of Siemens AG, Germany only in the nuclear power plant units at Olkiluoto, Finland or in a special case in Sweden, but not in any other country.

2. Background

The end use in Finland is regulated by the import license from our authorities. In our application for an import license for the relevant channels, we considered export only to the country of the manufacturer in case of reject. This application was dated May 4, 1990 and was addressed to the Finnish Centre for Radiation and Nuclear Safety. The only other technically possible end use could be in reactors of the same type (designed by ABB Atom) in Sweden. In case TVO for some reason cannot use the channels in Finland and we want to sell them to a Swedish utility, TVO will apply for an export license, which will be subject to all relevant international agreements to which our government/ministry is a party.

Yours sincerely,

TEOLLISUUDEN VOIMA OY
