Dear Mr. Orser:

SUBJECT: NRC GENERIC LETTER 89-13, "SERVICE WATER SYSTEM PROBLEMS AFFECTING SAFETY-RELATED EQUIPMENT" (TAC NO. 74002)

By letter dated January 26, 1990, Detroit Edison Company (DECo) submitted one of two required responses to the subject generic letter (GL). We note that you have committed to each of the five recommended actions of GL 89-13, with the exception of recommended action III. In the case of action III, DECo has provided an equally effective alternative course of action. On this basis, we accept your response as fulfilling this requirement of the GL.

If you choose a course of action different from the recommended actions of the GL, you should document and retain appropriate plant records showing justification that the alternative action is acceptable.

The staff will complete its review of DECo's response to GL 89-13 upon receipt of the second of the two required responses to the GL.

Sincerely,

~~Handwritten signature~~ by

John F. Stang, Project Manager
