Gentlemen:

This refers to the inspection conducted by Dr. J. B. Nicholas of this office during the period June 25-29, 1990, of activities authorized by NRC Operating License NPF-87 and Construction Permit CPPR-127 for Comanche Peak Steam Electric Station, Units 1 and 2, and to the discussion of our findings with Mr. W. G. Westhoff and other members of your staff at the conclusion of the inspection on June 29, 1990.

Areas examined during this inspection included the liquid and gaseous radioactive waste systems, radioactive waste management program, and water chemistry and radiochemistry programs. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

T. P. Gwynn for

Samuel J. Collins, Director
Division of Reactor Projects
