Gentlemen:

This refers to the routine safety inspection conducted by Mr. S. J. Mulay of this office on July 11, 1990, of activities authorized by NRC Byproduct Material License No. 24-15235-03 and to the discussion of our findings with you and other staff members at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

In addition to the above areas, the inspector examined actions described regarding apparent violations found during our February 13 and 14, 1989, inspection. We have no further questions regarding these matters.
