

AUG 22 1990

DOCKET NO: 70-1257
LICENSEE: Advanced Nuclear Fuels Corporation (ANF)
Richland, Washington
SUBJECT: SAFETY EVALUATION REPORT, AMENDMENT APPLICATION DATED
JULY 20, 1990, RE CHANGES TO THE CORPORATE PARENT'S NAME

Background

By application dated July 20, 1990, ANF requested changes to reflect the new location of corporate offices and the corporate parent's name.

Discussion

In the existing license, ANF's corporate offices are located at 600 18th Avenue, NE, Bellevue, Washington, and the licensee is a wholly-owned subsidiary of Siemens KWU, Inc., which is a wholly-owned subsidiary of Siemens Capital Corporation. In the subject application, ANF requested that the street address of the corporate offices and the corporate parent's name be changed to 155 108th Avenue, NE, and Siemens Corporation, respectively.

Activities relative to licensed material remain unchanged, and the staff and procedures have not been affected. There is neither a change in ownership nor an alteration of the radiological and nuclear criticality safety or environmental protection controls associated with facility operations.

Conclusion/Recommendation

Based on the discussion, the staff concludes that approval of the request will not adversely affect the protection provided for the health and safety of workers and the public or for the environment. Therefore, the staff recommends approval.

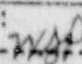

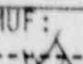

The Region V Principal Inspector has no objection to this proposed action.
