License No. 21-08606-03
Docket No. 030-04868

This refers to the routine safety inspection conducted by Mr. M. A. Kunowski of this office on July 26, - August 2, 1990, of activities authorized by NRC Byproduct Material License No. 21-08606-03 and to the discussion of our findings with Messrs. D. Trefry and J. Decker at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in violation of NRC requirements, as described in the enclosed Notice. The inspection showed that actions had been taken to correct the identified violation and to prevent recurrence. Consequently, no reply to the violation is required and we have no further questions regarding this matter at this time. In addition, one isolated Severity Level V violation was identified by the inspector relating to the failure to properly fill out a shipping paper. This violation was promptly corrected during the inspection. Therefore, this violation is not being cited because the criteria specified in Section V. A. of the NRC Enforcement Policy were satisfied.

In addition, one isolated Severity Level V violation was identified by the inspector and promptly corrected. This violation is not being cited because the criteria specified in Section V. A. of the NRC Enforcement Policy were satisfied.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

Sergio L. Suarez Jr
