Division of Radiation Safety and Safeguards

Sir;

In reply to your letter of August 3, 1990.

1. I was under the false belief that all the Certificates of Compliance were issued for the same specified time. The expiration date was overlooked by me.
2. After Mr. Halley made me aware of the fact that the certificate was expired, I immediately called Source Production and Equipment Co. and requested a current certificate. I have received that certificate and have it on file.
3. I have now placed all expiration dates in a separate file so I will be aware of the renewal dates in the future.
4. I received the current certificate on July 16, 1990 and placed it on file. I should now be in compliance and should not need additional time.

Sincerely,

*Neal A Cox*
