RE: SUA-667  
Docket 40-4492

Dear Mr. Hall:

By letters dated February 8, 1990 and July 12, 1990 ANC requested NRC's concurrence that the portion of Tailings Pond No.2 south of 779,600 N had achieved 90% consolidation. We have been informed by Mr. Ray Gonzales that the NRC would like to have the radon barrier placed over the entire pond in one operation completed in one construction season. In view of this, we request that NRC review all the settlement data provided on July 12, 1990 and determine if you are in agreement that consolidation has occurred over all of Tailings Pond No. 2.

Sincerely,

John C. Ferguson  
President
