Gentlemen:

This refers to the inspection conducted by Messrs. L. D. Gilbert, L. E. Ellershaw, and W. M. McNeill of this office during the period August 27-31, 1990, of activities authorized by NRC Operating License NPr-67 and Construction Permit CPr-127 for Comanche Peak Steam Electric Station, Units 1 and 2, and to the discussion of our findings with you and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included inservice testing of pumps and valves and the quality assurance program. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. The inspection findings are documented in the enclosed inspection report.

During this inspection, it was found that certain of your activities were in violation of NRC requirements. Consequently, you are required to respond to this violation, in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

Also during this inspection, it was found that you were not in full compliance with procedures regarding record retention. However, in accordance with Section V.A. of the NRC's Enforcement Policy, no citation is being issued for the violation described in paragraph 3.3 of the enclosed inspection report.

The response directed by this letter and the accompanying Notice is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
