Little Rock, Arkansas 72203

Gentlemen:

This refers to the inspection conducted by Messrs. C. C. Warren and P. H. Harrell and Ms. L. J. Smith, of this office, during the period July 16 through September 4, 1990, of activities authorized by NRC Operating Licenses DPR-51 and NPF-6 for Arkansas Nuclear One, Units 1 and 2, and to the discussion of our findings with Mr. Fenech and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included followup of events, operational safety verification, surveillance, maintenance, design changes, licensee event reports, and previous open items. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. The inspection findings are documented in the enclosed inspection report.

Within the areas inspected, no violations or deviations were identified.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original Signed By:
Thomas P. Gwynn

Samuel J. Collins, Director
Division of Reactor Projects
