RE: Permit 352, Revised Phase III Plans

Dear Mr. Ferguson:

After reviewing your letter of August 14, 1990 with Mr. Shaffer, I was instructed to respond directly to you on this matter. We concur with your proposal to split the Phase III work into Phase III-A (dam reduction and topsoil salvage) and Phase III-B (fill material, cover material and Campsite Draw construction).

We would expect that this will be acceptable to the NRC since it provides for completion of the compacted cover in one season (1991). We also note that the cost of the combined Phase III-A and III-B work (\$1,360,793) is exactly as it was approved in Mr. Hall's letter to you dated February 6, 1990.

It is hoped that NRC concurrence will be forthcoming so that the Phase III-A work can be completed this fall. Pending NRC concurrence, you may be assured that we will expeditiously release the monies for Phase III-A (\$166,967 less Criterion 10 adjustment) upon satisfactory completion of the Phase III-A work.

Sincerely,

Mark Moxley
District II Supervisor
Land Quality Division
