Gentlemen:

Subject: Combined Inspection Report Nos. 50-245/90-18; 50-336/90-20; and
50-423/90-18

This refers to the routine safety inspection conducted by Dr. Jason C. Jang of this office on September 10-14, 1990 at the Millstone Site, Waterford, Connecticut of activities authorized by NRC License Nos. DPR-21, DPR-65 and NPF-49, and to the discussion of our findings held by Dr. J. Jang with Mr. C. Clement and Mr. H. Haynes and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of this inspection, no violations or deviations were noted. The issuance and implementation of the Radiation Monitor Manuals for all units are an excellent effort to maintain the monitoring system integrity and operability.

Your cooperation with us in this matter is appreciated.
