Ms. Judy Joastro
Nuclear Regulatory Commission
Region 1
631 Park Avenue
King of Prussia, PA 19406

Dear Ms. Joastro:

I am writing to you in response to our telephone conversation (11/9/87) regarding the Hewlett Packard Gas Chromatograph Model 5890A. You requested additional information about this unit, in order to complete our original request for an addition to our present NRC license. Please reference Docket #030-19286, and Control #107728.

This gas chromatograph will be used to perform screenings and analysis of samples out in the field. The unit will be transported by motor vehicle (car, truck, or van) or be towed while secured in a trailer.

During the time that the GC 5890A is left unattended while in the field, it will be locked up and secured in whatever vehicle or trailer that transported it to the site.

I hope this information will help you to complete the license addition request. If there are any problems or questions regarding this matter, please do not hesitate to contact me directly.

Sincerely,

CAMP DRESSER & MCKEE INC.

Peter R. Teto

RECEIVED

'87 SEP -8 A9:33

I am writing to you in response to our recent phone conversation regarding the addition of equipment on to our existing NRC license. At this time, I would like to request that we be allowed to add the following equipment item onto our present NRC license (License #20-17020-02, Docket #030-19286, Control #119721).

Hewlett Packard Gas Chromatograph Model 5890
ECD Detector Model 19233 Serial #L1928
15 millicuries Nickel 63

This gas chromatograph will be used in the field and we would request this item be given the same privileges as our existing licensed material (Hydrogen 3); that being the licensed material (Nickel 63) may be used at temporary job sites anywhere in the United States where the Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed materials.

These are the only changes we would like to make on our existing license. If there are any problems or questions regarding this matter, please do not hesitate to contact me directly.

Sincerely,

Peter R. Teto
Region 1 Equipment Manager

ATTN: Mr. Peter R. Teto
Region I Equipment Manager
One Center Plaza
Boston, MA 02108

Gentlemen:

This refers to your letter dated August 20, 1987, for an amendment to Materials License 20-17020-02 to add the Hewlett Parkard Gas Chromatograph Model 5890.

An amendment fee of \$60 is required as specified in §170.31 (3P) of 10 CFR 170, copy enclosed. Payment should be made to the U.S. Nuclear Regulatory Commission and mailed to my attention at our Washington, D.C. address.

Your application will be processed by the Region I Licensing staff located at 631 Park Avenue, King of Prussia, Pennsylvania 19406. The fee, however, is required prior to issuance of the amendment. When submitting the fee, please refer to CONTROL NUMBER 107728.

Sincerely,

Glenda Jackson
