Gentlemen:

This confirms our plans as discussed on December 20, 1982, between Mr. T. Rausch of your staff and Mr. R. Walker of this office to conduct an Enforcement Conference with you and members of your staff at 1:00 p.m. (CST) on January 14, 1983, at the U. S. Nuclear Regulatory Commission's Region III Office in Glen Ellyn, Illinois. This Enforcement Conference relates to the circumstances surrounding two recent operational events involving the isolation of a turbine first stage pressure sensor used in the reactor protection system for Unit 2, and the exceeding of the test pressure during a hydrostatic test of the Unit 1 reactor vessel.

We will gladly discuss any questions you may have concerning this matter.

Sincerely,

R. L. Spessard, Director
Division of Project and
Resident Programs
