License No. SNM-7  
Docket No. 070-00008

Dear Dr. Brog:

This letter is to confirm the management meeting scheduled for 1:00 p.m. (CST) on Friday, March 11, 1994, in the NRC Region III office located at 801 Warrenville Road, Lisle, Illinois. The Region III attendees will include W. L. Axelson, Director, Division of Radiation Safety and Safeguards, and other members of the Region III and Headquarters Nuclear Materials Safety and Safeguards staff. The purpose of this meeting is to discuss the recent inspection performed at your facility, the Battelle Columbus Operations (BCO) management philosophy on interactions with the NRC, the BCO license status, and the BCO radioactive source accountability program. Other topics for discussion will include:

1. Self assessments;
2. Openness with the NRC;
3. Separation of the current license into three separate licenses;
4. Accountability of licensed materials; and
5. Licensing issues with regard to the release of decontaminated buildings one at a time rather than the entire site.

If you would like to discuss this letter, please contact me at (708) 829-9800.

Sincerely,

Original signed by W. L. Axelson
