Dear Mr. Smith:

SUBJECT: INSPECTION REPORT NOS. 50-352/94-04 AND 50-353/94-04

This letter refers to the inspection conducted by Mr. Carrasco of this office on January 31-February 4, 1994, at the Chesterbrook office and the Limerick Generating Station, Units 1 and 2 in Sanatoga, Pennsylvania. The inspector discussed the results of the inspection with Mr. G. V. Cranston and other members of your staff at the conclusion of the inspection.

This inspection focused on activities important to the public health and safety and was directed towards engineering activities with emphasis on the proficiency of the engineering staff engaged in the design modification process for the 6236 emergency service water (ESW) and residual heat removal service water (RHRSW) improvement program, including interfaces with other internal and external organizations.

Details of the areas examined during the inspection are described in the NRC Region I inspection report, which is enclosed with this letter. Within these areas, the inspection consisted of selected examinations of safety analyses and representative records, interviews with personnel, and observation by the inspector.

Within the scope of this inspection, no violations were observed. We noted that your staff has good control over the design activities to support the plant operations.
