Dear Mr. Perry:

This refers to the inspection conducted by Messrs. P. G. Brochman and F. L. Brush of this office on January 11 through February 22, 1994. The inspection included a review of authorized activities for your Clinton Power Station facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations of activities in progress, and interviews with personnel.
