

DEC 30 1982

Docket No. 50-358

Cincinnati Gas and Electric  
Company  
ATTN: Mr. Earl A. Borgmann  
Senior Vice President  
Engineering Services and  
Electric Production  
139 East 4th Street  
Cincinnati, OH 45201

Gentlemen:

This refers to your letter (QA 1926) dated August 10, 1982 (copy attached) regarding the status, schedule, and update of the Quality Confirmation Program (QCP) provided to the NRC.

You are currently providing a monthly report on the status of the Quality Confirmation Program. It would be helpful if your monthly report included an executive summary outlining the significant findings and the significant changes in the status which occurred during the time period covered by the report.

Copies of the monthly status report should also be provided to the Senior Resident Inspector, the Zimmer Project Inspector in Region III, the NRC Office of Inspection and Enforcement (Attention: James H. Sniezek), and the Office of Nuclear Reactor Regulation (Attention: L. Kintner).

Cincinnati Gas and Electric  
Company

Gentlemen:

This letter constitutes a supplementary response to the subject Investigation Report. It is our opinion that nothing in this letter is of a proprietary nature.

Our original response to the subject Report, QA-1632, dated February 24, 1982, stated that corrective actions to be taken to resolve certain cited deficiencies would be addressed through the Quality Confirmation Program (QCP) and this program was expected to be completed by July, 1982. Since the original response was issued, the schedule for completion of the QCP tasks has been revised. The NRC will be kept advised of the status and schedule of the QCP by receipt of the QCP Monthly Status Report which is provided to the Senior Resident Inspector.

We trust the above will be found acceptable as supplementary response to the subject report.

Very truly yours, *CGEC*

THE CINCINNATI GAS & ELECTRIC COMPANY

By *E. A. Borgmann*
