Gentlemen:

Your letter dated August 17, 1978, requested a re-evaluation of our preliminary review of your May 11, 1978 application as it relates to license amendment fees pursuant to 10 CFR Part 170 for the inter-station transfer of spent fuel for Dresden Units 2 and 3 and Quad-Cities Units 1 and 2.

As you requested, we asked the technical staff to review the fee classification again considering your additional information of August 17. Based on this review, it appears that the Class III and I fees you paid for each of the two Stations are correct. As indicated in previous correspondence, a final determination of classification is made when the review effort is complete.
