Inspection Summary:

Inspection on August 8-11, 1978 (Report No. 50-334/78-19)

Areas Inspected: Routine, unannounced inspection by two regional based inspectors of the physical security plan implementation including security organization, physical barriers, access controls, communication controls, detection aids, testing and maintenance and response procedures. The inspection involved 54 inspector-hours onsite by two NRC regional based inspectors.

Results: Of the eight areas inspected, no apparent items of noncompliance or deviations were identified in six areas; two apparent items of noncompliance were identified in two areas; security organization, (Infraction, Paragraph 5) and testing and maintenance, (Deficiency, Paragraph 10).
