

40-861

February 24, 1994

Note to: John Lentz
From: Jay McGurren
SUBJECT: LAMOTITE, INC (HORIZONS, INC)

You asked us to look at a letter dated February 2, 1994, from the law firm representing Lamotite Incorporated that requested the NRC to issue an order requiring Horizons Incorporated to remediate the site. On its face, there is insufficient basis stated in this letter to treat it as a request for action pursuant to 10 C.F.R. 2.206. If there are other submissions by Lamotite or its attorneys, we would need to look at these materials to determine if basis exists to support a 2.206 request. Absent such materials, we suggest that you merely respond by letter. OGC should review a draft response before it is issued.
