### Gentlemen:

## Millstone Nuclear Power Station, Unit Nos. 1 and 2 Emergency Preparedness Appraisal

As a result of the NRC Staff's appraisal of the state of emergency preparedness at the Millstone Nuclear Power Station (MNPS), which was conducted during the period of January 4-14, 1982, several items which warranted further action were identified. These items were documented by the NRC Staff in Reference (1). For your convenience, the specific references in which we responded to each item in Appendix A to Reference (1) were identified in Attachment No. 1 to Reference (2). Our responses to those items listed in Appendix B to Reference (1) were provided in Attachment 2 to Reference (2). Reference (3) provided additional information regarding Item Nos. 2, 34, and 37 in Appendix B to Reference (1). The purpose of this submittal is to report Northeast Nuclear Energy Company's completion of commitments regarding Item Nos. 2 and 37 in Appendix B of Reference (1).

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY

W. G. Counsil

Senior Vice Fresident

## ATTACHMENT NO. 1

· · ·

din a

# MILLSTONE NUCLEAR POWER STATION UNIT NOS. 1 AND 2

EMERGENCY PREPAREDNESS APPRAISAL

DECEMBER, 1982

## Responses to Items Identified in Appendix B to Reference (1)

#### Item No. 2:

Revise the Emergency Plan to fully reflect the assignment of responsibilities for maintaining emergency preparedness of Corporate and Station personnel including the Emergency Planning Coordinator.

#### Response

The Millstone Nuclear Power Station Emergency Plan (MNPSEP) has been revised (Revision 10) to fully incorporate the Item No. 2 concerns noted above. Station procedures have been revised to implement the changes in the MNPSEP. The revised MNPSEP became effective on December 15, 1982.

#### Item No. 37:

Develop a procedure to implement the transition from an emergency classification to a recovery mode, including specific criteria upon which the emergency classes will be downgraded and provisions for notifying Federal, State and local officials prior to entering a recovery mode.

#### Response

A corporate procedure has been developed which covers the transition from an emergency classification mode to a recovery mode. Millstone procedures have been revised to include the requirements of the corporate procedure; the Millstone and corporate procedures became effective on December 15, 1982.
