COMMENTS ON SYSTEMATIC ASSESSMENT OF LICENSEE PERFORMANCE

Your letters of October 18 and October 22, 1982 transmitted the Systematic Assessment of Licensee Performance (SALP) reports for the Palisades and Big Rock Point Plants, respectively. These reports covered the period from July 1, 1981 to June 30, 1982. As we discussed in our October 28, 1982 meeting, Consumers Power Company finds these reports to be fair and accurate assessments of our performance during this SALP reporting period, with the possible exception of the Security and Safeguards area for Big Rock Point Plant. We would like to discuss this issue further with appropriate members of your staff at your convenience.
