

OCT 05 1982

Florida Power Corporation
ATTN: Mr. J. A. Hancock
Vice President Nuclear Operations
P. O. Box 14042, M.A.C. H-2
St. Petersburg, FL 33733

Gentlemen:

Subject: Report No. 50-302/82-18

This refers to the routine safety inspection conducted by Mr. T. Stetka of this office on July 27 - August 27, 1982, of activities authorized by NRC Operating License No. DPR-72 for the Crystal River facility. Our preliminary findings were discussed with Mr. E. M. Howard, Director, Site Nuclear Operations, at the conclusion of the inspection.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors.

During the inspection, it was found that certain activities under your license appear to violate NRC requirements. These items and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Appendix A. Elements to be included in your response are delineated in Appendix A.

Violation A appears to be recurrent. In addition to the need for corrective action regarding this specific violation, we are concerned about the implementation of your management control systems that permitted this occurrence. Consequently, in your reply, you should describe in particular those actions taken or planned to improve the effectiveness of your management control systems.

We have examined actions you have taken with regard to previously identified enforcement matters and unresolved items. The status of these items is discussed in the enclosed report.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosures will be placed in the NRC's Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

OCT 05 1982

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

R. C. Lewis, Director
Division of Project and
Resident Programs
